

# PRECISION TUBING SOLUTIONS

EXPERIENCE | RELIABILITY | AFFORDABILITY

With over 30 years of proven expertise, M&M International is dedicated to delivering precision-engineered tubing solutions for the medical and high-tech industrial markets.

## Unmatched Expertise

Over two decades of proven excellence in stainless steel tubing.

## Proven Reliability

Unmatched speed to market, tailored solutions and reliable support.

## Innovative Offerings

Multiple alloys, various finishes, centerless grinding, and specialty cut pieces.

## Customer Focus

Solutions designed to meet your unique specifications, performance requirements, and timelines.

## Real Results from Real Clients

### Powering Industrial Performance

Industry: Industrial

When a leading industrial manufacturer needed high-performance tubing for use in demanding production environments, M&M provided a custom-engineered solution built for reliability. Our precision extruded tubing offers superior resistance to abrasion, chemicals, and high temperatures, ensuring long service life and minimal downtime. Designed to handle the toughest applications, this solution reflects our commitment to delivering durable, efficient, and cost-effective tubing that keeps industrial operations running smoothly.

## HIGH QUALITY ALLOYS

Grades : 304, 304L, 316, 316L, 17-17C

## VERSATILE PRODUCTS

Welded & Drawn, Multiple Plug Drawn, Seamless

## PRECISION ENGINEERING

Tight tolerances up to  $\pm 0.005$  inches

Custom sizes and exact cuts available

## DURABILITY & STRENGTH

Temper range: Annealed to Full Hard (up to 200,000 psi tensile strength)

Hardness: 200-420 HV

## WIDE SIZE RANGE

32G to 1"

Outer Diameter (OD): 1" to 0.0090"

Wall Thickness (WT): 0.400" to 0.0020"

## FINISHES FOR EVERY NEED

Brite Drawn, Mirror Finish, Custom RA options
